

DECISIVE VICTORY FOR DRY FORCES

Madisonville Stays Dry by 148
Majority After Hard Fight

MUCH ENTHUSIASM IN HOPKINS
COUNTY OVER THE RESULT

Madisonville, Ky., Jan. 25.—After one of the hardest fought campaigns in the history of the city, Madisonville yesterday voted 148 majority against the return of the open saloon, which was banished three years ago by a majority of 124 votes, and when the result was announced the hundreds of men, women and children congregated in front of the courthouse, awaiting the announcement of the result, went wild and for a few minutes the rejoicing of the victors was great.

The day's fight started at 5 o'clock in the morning with prayer service at the Methodist Church, and this was conducted throughout the day until the result was announced. A leader of the service was appointed for each hour during the day, and the ladies of the town not engaged in work on the street assembled in the churches.

Parades of hundreds of small children, carrying flags and banners with various inscriptions, were started at 8 o'clock and this was also continued throughout the day. These children were led by the ladies, singing songs and with pleas for the citizens to vote dry.

Colored People in Line

The colored school children also took a prominent part in the day's campaign, several hundred of them lining up and marching through the colored section of the city, on to the business district of Madisonville. The colored ministers and members of their churches also hustled throughout the day, and the fact that they took a prominent part in the fight that was made had much to do with the result of the election, as the colored voters number several hundred.

Last night a big demonstration was held at the tabernacle, which was packed to overflowing, many being unable to gain admittance.

The anti-saloon advocates have worked hard and faithfully for the past few weeks, and have been ably assisted by a number of prominent temperance workers from over the country. Meetings have been held both night and day, and the colored people have been as active as the whites in the fight.

Madisonville voted dry 3 years ago by a majority of 59, which was contested by the "wets" and another election was held a few months after, resulting in another "dry" victory, this time the majority reaching 150. The city is at present in a splendid financial condition, being entirely out of debt and having a cash balance of several thousand dollars, and this fact was a big "puller" for the temperance cause.

While the campaign was bitterly contested and much excitement was in evidence during the day, everything passed off smoothly, and no trouble was reported from any section of the city.

Anti-saloon people here are confident now that the open saloon will never return to Madisonville.

A Girl's Wild Midnight Ride

To warn people of a fearful forest fire in the Catskills a young girl rode horseback at midnight and saved many lives. Her deed was glorious, but lives are often saved by Dr. King's New Discovery in curing lung trouble, coughs and colds, which might have ended in consumption or pneumonia. "It cured me of a dreadful cough and lung disease," writes W. R. Patterson, Wallington, Tex., "after four in our family had died with consumption, and I gained 87 pounds." Nothing so sure and safe for all throat and lung trouble. Price 50c and \$1.00. Trial bottle free. Guaranteed by a druggist.

TOLL RATES FOR PANAMA CANAL

Senator Bradley Presents Bill to
Regulate the Charges

CANAL TO BE OPERATED
THROUGH WAR DEPARTMENT

Washington, Jan. 23.—Senator Bradley today introduced a bill providing that the Isthmian Canal Commission shall go out of existence on January 1, 1915, and that from and after that date the Panama Canal shall be operated by the President, through the Chief of Engineers of the United States army.

Under Senator Bradley's plan, the Panama Railroad Company shall continue to be a part of the canal. He stipulates in his bill that the charges and tolls upon vessels using the canal shall be based upon registered net tonnage, cargo tonnage, displacement tonnage or otherwise, and when based upon registered tonnage, shall not exceed \$1.25 per ton, American measurement. The charge for passengers shall not exceed \$1.50 per person. Vessels paying tolls on going through the canal without cargo, shall on their return trip laden with cargo be entitled to receive a rebate of 50 per cent. of the charges formerly paid.

Exemption from the payment of tolls is granted to the United States for its own vessels, materials and merchandise, the vessels owned by the Panama Railroad Company, and to ships of the republic of Panama.

FALLS, BREAKS LEG

B. I. Lane Meets With Severe Injury—
Son is Very Ill

B. I. Lane, of 610 West State street, a night foreman at the Southern shops, fell on the ice near his home Saturday evening, and his right leg was broken. The injury is quite a severe one and Mr. Lane will be laid up for some time.

A sad feature in connection with the accident is that a son, Elgie Lane, aged 18 is very ill with pneumonia. The many friends of the family much regret the double misfortune, and hope for the early recovery of both patients.

In every home where their are children be a bottle of WHITE'S CREAM VERMIFUGE. It destroys worms and acts as a tonic in the debilitated system. Price 25c. per bottle. Sold by St. Bernard Mining Co., Incorporated, Drug Department.

Renfro-Bourland

The wedding of Miss Alma Renfro and Mr. H. R. Bourland took place yesterday evening in Nashville about eight o'clock. Mr. Bourland left for Nashville yesterday morning on the Dixie Flyer and Miss Alma pretending to her friends, that she was going to make relatives in Bowling Green a visit left on 51 for Nashville. Mr. Bourland had arranged everything and they were married as soon as the bride to be arrived.

Mr. Bourland has long been a resident of Earlinton and was for a long time connected with the firm of Bourland & Mothershead, and previously this he was head clerk in the St. Bernard Store. He also has the high honor of being Mayor of our little city.

Mrs. Bourland is a very beautiful and attractive young woman and has a host of friends. She was until a short time ago connected with the millinery department of Barnes Coward & Co.

After the honeymoon they will leave for Portland, Tex., where they will make their future home. Mr. Bourland has an excellent position in Portland and although Earlinton hates to lose two of their best citizens we wish them every success and happiness in their new home.

J. W. Lester Badly Hurt

On last Friday J. W. Lester was doing some carpenter work on the house of Mrs. Brown, near Cavalier & Malone's store, when he fell off a bench about eighteen inches high and broke three ribs and bruised himself up considerably.

School Notes

Honor Roll for Fourth Grade

Chester Asbby, Douglas Bradley, Emerson Browder, Clyde Bennett, Mark Cavanaugh, Rosa Cavanaugh, Edna Franklin, Clyde Martin, Harrold Oldham, Arthur Robinson, Bertha Vaughn, Guy Fresh.

The highest examination average made by any girl in fourth grade was made by Zora Robinson and the highest average of any boy was made by Clyde Bennett.

The Sophomore year are beginning the study of Botany. They have been collecting a great deal of material for performing experiments. The first half of the work will be confined to the text book and the last half to analysis of the different parents.

Margaret Kemp, who has been ill with tonsillitis is able to be back at her studies.

The "Girls Glee Club met Tuesday afternoon. Several new songs were practiced and as all were present they had a very successful practice. The altos deserve special attention, as their work done was splendid.

The county examinations will be held at the Madisonville School Friday and Saturday. Those who will go from here are Villa Sisk, Jess Greer, Kathleen Corey, Edgar and Howard Arnold, Kenneth Nisbet, Ethel Oldham, Willie Craig and Corinne Asbby.

From a Junior English paper we had this enlightening statement. "Beawulf pulled of Grendels' shoulder and he went limping home." From the fourth grade. "A reason is the distance between two bar-room."

Examinations are now ended and the pupils have begun the second term in real earnestness. We intend to make this term the greatest one yet.

The junior year have started the study of Physics, which promises to be a very interesting study.

Don't forget the Art Exhibit to be held at the Victory building February 8, 9 and 10. Proceeds to be used to purchase pictures for the school rooms. It is hoped that a sufficient sum may be realized to be able to purchase at least one picture for each room. The pupils are taking a lively interest in the exhibit, and expect a great success.

Well Known Citizen of Madisonville
Passes Away

N. B. Scott, one of the best and beloved citizens of Madisonville, died of heart trouble Wednesday morning about 7:30 o'clock.

He came to Madisonville about five years ago. He was sixty years old and survived by a wife and ten children. The funeral will take place today at the residence, and will be conducted by Rev. C. F. Wimberly. He will be buried at the Odd Fellows cemetery. The Bee offers deepest sympathy to the bereaved ones.

COUNTY UNIT

BILL PASSES

Kentucky House and Senate Approve This Bill

GOVERNOR McCREARY WILL SIGN IT

Frankfort, Ky., Jan. 25.—The county unit bill, regarded as the most drastic anti-liquor bill ever

enacted in this state, passed the senate 24 to 14 today. The measure approved by the lower house, now goes to Gov. McCreary, who is expected to sign it. Both democrat and republicans in their platforms last fall declared for such a law. Wm. R. Hearst has accepted an invitation to address the general assembly of Kentucky on Feb. 14. The legislature has invited other democratic leaders to speak in Frankfort. Invitations have been sent to Henry Watterson, Gov. Harmon and Gov. Woodrow Wilson. Mr. Hearst's acceptance was received here today.

POLITICAL NOTES

The New York Evening Post says: The agreement between Speaker Clark and Ex-Gov. Folk to submit their Presidential aspirations for judgment before the Democratic State Convention of Missouri, which meets a month from today, is rather more interesting than important. Neither of the men stands today within measurable distance of the Democratic nomination. After Clark's display on the subject of Canadian annexation, his nomination would more than confirm the Democratic party's traditional impulse toward suicide. And as for Folk, he stands completely overshadowed by at least half a dozen other Democrats.

LOOKS LIKE PEACE IN THE ANTHRACITE COAL FIELD

Probably not More Than 15,000 Out of 170,000 Paying Dues.

Advices from the East indicate that the 170,000 anthracite miners "will think twice before they enter into a campaign of active hostility" in the matter of the approaching settlement which comes on April 1st. The figures published state that there is now in the national treasury of the miners' organization only \$197,216. It is also stated that probably 15,000 out of 170,000 anthracite miners are paying dues. It is believed that John Mitchell will counsel peace in the matter of the wage settlement.

Foley's Honey and Tar Compound "Cures in Every Case"

Mr. Jas. McCaffery, M. R. of the Schiltz Hotel, Omaha, Neb., recommends Foley's Honey and Tar Compound, because it cures in every case. "I have used it myself and I have recommended it to many others who have since told me of its great curative power in diseases of the lungs and throat." Foley's Honey and Tar Compound is a reliable family medicine. Give it to your children, and take it yourself when you feel a cold coming on. It checks and cures coughs, colds and croup and prevents bronchitis and pneumonia. Refuse substitutes.

A Barbed Wire Cut. Collar or Saddle Gait not properly healed leaves a disfiguring scar.

Ballard's SNOW LINIMENT

Is the Right Remedy for All Abrasions of the Flesh.

If the wound is cleansed and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outwardly, thus forming a perfect cure that leaves no scar. If the wound heals on the outside too quickly, pus forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of blooded stock prefer this liniment to all others for that reason, and they use it not only on fine animals, but on human flesh, as it does its work quickly and thoroughly.

Price 25c, 50c and \$1.00.

TROUBLE AT MINES

Hundred Men Discharged For Refusing to Work

Rockport, Ky., Jan. 23.—Refusal to enter the mines of the Rockport Coal Company here when requested to do so by President H. L. Tucker resulted in the wholesale discharge of the miners, and today nearly a hundred men are idle as the result of the ultimatum issued by President Tucker, who declares the men cannot return to work while he is Superintendent.

For some time trouble has been brewing between the miners and officials, and she men have "walked out" on several occasions. The miners have worked only four days this year, and they are not making enough to support themselves and families. Local merchants are refusing to let goods out on credit, it is said, and the situation is becoming serious.

RECORD OF A GREAT MEDICINE

Doctors Could Not Help Mrs. Templeton—Regained Health through Lydia E. Pinkham's Compound.

Hooper, Nebraska.—"I am very glad to tell how Lydia E. Pinkham's Vegetable Compound has helped me. For five years I suffered from female troubles so I was scarcely able to do my work. I took doctors' medicines and used local treatments but was not helped. I had such awful bearing down pains and my back was so weak I could hardly walk and could not ride. I often had to sit up nights to sleep and my friends thought I could not live long. At my request my husband got me a bottle of Lydia E. Pinkham's Vegetable Compound and I commenced to take it. By the time I had taken the seventh bottle my health had returned and I began doing my washing and was a well woman. At one time for three weeks I did all the work for eighteen boards with no signs of my old trouble returning. Many have taken your medicine after seeing what it did for me. I would not take \$1000 and be where I was. You have my permission to use my name if it will aid anyone."—Mrs. SUSIE TEMPLETON, Hooper, Nebraska.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

Mistaken Diagnosis—Doctors Guess Wrong Again

About five years ago I wrote to you I had been a terrible sufferer from kidney and bladder troubles, and that my physician informed me that my left kidney was in such condition that there was no hope for my recovery I was advised to try your Swamp-Root as a last resort, and after taking four fifty-cent size bottles, I passed a gravel stone which weighed ten grains. I afterwards forwarded you this gravel stone. Have had no return of any trouble since and cannot say too much in much in favor of your wonderful preparation, Swamp-Root, which cures, after physicians fail.

Very truly yours,

Most Awful Dry

A gentleman living in Lake City had just finished a trip through eastern Colorado and western Kansas. He says that it is the driest dried up country that he ever saw.

"Why," said he, "it is so dry there that wagons are going around with their tongues out. The cottonwood trees are 'spitting cotton.' The hogs have to be soaked in water overnight so that they will hold still, and ice has to be soaked in water before it is wet enough to make lemonade. The calves kick up such a dust in the beds of the streams that the steams have to be sprinkled before you can go fishing. A spark from an engine set fire to a pond and burned up a lot of bullfrogs before the fire was extinguished. The ground is so dry that crawfish holes in low places are being pulled up and used for gas pipes. The whole country is so dry that even the railroads running through that region cannot water their stock."

Just at this point the office towel fell from the nail and broke into thousands of pieces and the picture of George Washington faded entirely away.

GREATEST INDIAN DANCE OF THE YEAR

Heathen Tribute to Sun God at Pueblo Village Near Santa Fe

Santa Fe, N. Mex., Jan. 23.—The buffalo dance, the greatest dance of the year at the Pueblo village of San Ildefonso, twenty miles north of Santa Fe, began at sunrise today, and will continue until sundown. The dance is of heathen origin, although the Pueblos are nominally Christians, and still is observed as it was before the days of Columbus. The Indians claim not a single alteration in the dance has been made within a thousand years, and some of the masks and costumes used are hundreds of years old. The dance is known as the "Ong-Sha-Re," and beseeches the sun god to grant a year of plentiful game and corn.

At dawn the Lucks, disguised as buffalo, deer, antelope and elk, marched in single file from a gap in the mountains into a pueblo, where they joined the squaws in a dance, to the sound of a chorus of voices and the beat of cottonwood drums.

Scientists of the School of American Archaeology and of the Bureau of American Ethnology are attending the dance and taking photographic records and pictures of the dance. Several hundred Indians are participating.

HOOKWORM IN KENTUCKY

State Bacteriologist South Lectures to Normal School Students

Richmond, Ky., Jan. 23.—Dr. Lillian South, of Bowling Green, State bacteriologist, gave a highly interesting and instructive lecture at the Normal School here tonight under the auspices of the State Board of Health and the State Federation of Women's Clubs on the prevalence of hookworm in Kentucky. Dr. South says that hookworm has been found in twenty-five counties representing all portions of the State. The lecture was illustrated with stereopticon views showing Kentucky schoolhouses where at least 75 per cent of the children were infected with hookworm. She also explained what measures of prevention are being taken.

Apples vs. Doctors

Do you know just what you are eating when you eat an apple? Well, the experts at the Agricultural college have figured it out. You are eating malic acid, the property that makes buttermilk so healthful, and gallic acid. Sugar in a very assimilable form, consisting of carbon, hydrogen and oxygen, caught and imprisoned from the sunshine. Phosphorus is present in the only form in which it is available as a tissue building material.

The acids of the apple diminish the acidity of the stomach. Apples are nature's best complexion makers, and the water in the apple is in its purest form—much purer than any drinking water.

The ancients assigned the apple as the food for the gods and believed that its juices furnished the nectar, which the gods used to restore their youth.

Men are the gods of today and the apple is their royal food. Eat apples and you will put the doctor's trust in business.—Albion News.

Medicines that aid nature are always most effective. Chamberlain's Cough Remedy acts on this plan. It loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. Sold by all dealers.

RAILROAD TIES AND THEIR VALUES

Chemical Treatment of Ties on Southern Pacific, and Other Items

New York, Jan. 24.—Southern Pacific maintenance of way officials report that the company has 25,260,000 ties under its tracks west of El Paso. These ties represent an investment of over \$20,000,000. Southern Pacific renews about one seventh of its ties each year.

Untreated ties cost about 80 cents apiece and have an average life of four years. Treating the ties by burning or creosoting costs from 10 to 12 cents, and adds from 5 to 8 years to their life. In other words the life is increased 150 per cent at an additional cost of but 15 per cent.

Blue, fur, oak, cedar and redwood are used for ties. All but the redwood which is naturally long lived, being treated. This consists first of steaming to soften the wood cells and then subjecting to vacuum to withdraw the sap and water. Chloride of zinc or dead oil of coal tar is then forced into the cells, the former constituting burning and the latter creosoting. The ties are then given a sun bath for several weeks, completing the process.

As an added suggestion of what a great railroad system means in terms of detail the fact that there are four spikes and two tie plates to a tie gave a total of 101,000,000 spike and 50,800,000 tie plates on Southern Pacific's lines west of El Paso, which form about half of the Southern Pacific system. The spikes weigh about a half pound and the tie plates about 6 1/2 pounds each, making a total of 681,950,000 pounds of metal used to hold the rails.
